FIG. 8d

200 10 M

Timing diagram for a 32-bit serial port showing the sequence of bits over 1.54ms. The diagram is divided into three main sections:

- IN/OUT (31 bits):** The first section, spanning 1.54ms, contains 31 bits. It is labeled "IN/OUT" and "31 bits".
- Stop (31 bits):** The second section, spanning 1.54ms, contains 31 bits. It is labeled "Stop" and "31 bits".
- Start (31 bits):** The third section, spanning 1.54ms, contains 31 bits. It is labeled "Start" and "31 bits".

The entire sequence is labeled "1.54ms" and "1.54ms". The entire duration is labeled "1.54ms" and "1.54ms". The entire sequence is labeled "1.54ms" and "1.54ms".
